

A New Way
To Conceive
The Bike

JAVA

It was 2002 the world was beginning to change rapidly with an exciting new spirit of digital invention, creativity and imagination along with a worldwide drive for new purpose.

A new dawn. And yet, cycling was still very traditional, very conventional, conforming to some sort of rulebook.

From here Java is born.

Java, a new way to conceive the bike.

Its products have so many shades that everybody have the opportunity to choose the best one to meet personal specific demands.

Philosophy and History

Java was established in 2002 in Shenzhen (China), and from the first day it keep innovating and specializing in design and technology of the bicycle’s world. This process is possible thanks to a strong collaboration with Albertdesign, an Italian design studio composed by designers and communication experts that give personality to the products. Java bikes all over the world, with hundreds of retailers and agents. Take part in our history!

Tailored in Italy

Italian Essence

Constantly investing in research and development, we teamed up with Albertdesign (www.albertdesign.net).

The Italian friendly sport design agency signed the styling of the 2016 Java collection, tailoring each lines and choosing each color in order to ensure a range of modern, beautifully eccentric bike.

An Italian soul for Java,
winking to the Italian heritage.
Stepping into the future.

Lightness and speediness are the two keywords of J-AIR, the new brand that Java.
A company leader in manufacturing bicycles that combine design, technology and innovation.

04 J-AIR Series

Lightness and speedness

The Name

The name J-AIR is a mix of J (JAVA) and AIR, and has been chosen to convey the sense of fastness and agility that derives from riding these bikes.

Lines and colours design a range of modern, beautifully eccentric bikes.

The Italian essence is the real added value of a brand whose bikes are all realized in Full Carbon T1000, equipped with superior components and built to run faster.

J-AIR Collection

The J-AIR collection includes two mountain bikes, Selva and Campione, a road bike, Feroce, a folding e-bike, E-Neo, and a road e-bike, Vento.

Vento is the top model and the latest release of the collection. Versatile and agile, it is an electric road bike in Full Carbon T1000 making it lighter. A central custom made battery, Shimano R7000 gearbox, thru-axel wheels and disk brakes complete a gorgeous product that for its characteristics is also a cross country bicycle.

J-AIR Lancia

Dirt just got faster

Our Gravel bike is about action. Certifiable mood boosters and well-trained racers that take you into the wild. Primed for gravel, all-terrain approved and for pretty much any situation.

Explore the roughest dirt roads and terrains without sacrificing road speed with our Lancia J-AIR gravel bike.

An incredibly light and performing carbon frame, with a specific geometry for long distances.

For adventure and daily journeys: Gravel bikes can cover long distances even on dirt roads.

ON BIKE

Gloves

Designed for performance, built for comfort. The JAVA Summer Cycling Gloves offer a lightweight and breathable fit, ensuring optimal grip and control on every ride. The perforated fabric enhances ventilation, keeping your hands cool even on the hottest days. A strategically padded palm absorbs vibrations, reducing hand fatigue during long rides. The sleek black design, featuring the JAVA logo in a modern dotted effect, adds a touch of style to your cycling gear.

ON BIKE

Cycling Jersey

Performance meets style. The JAVA Road Cycling Jersey is designed for riders who demand comfort and aerodynamics on every ride. Crafted from lightweight, breathable fabric, it ensures optimal moisture management to keep you cool and dry. The sleek grey and black design offers a modern, race-ready look, while the ergonomic fit enhances mobility and performance. Finished with the JAVA logo on the chest, this jersey is the perfect blend of function and aesthetics.

ON BIKE

Helmet

Lightweight, aerodynamic, and designed for speed. The JAVA Road Cycling Helmet delivers top-tier protection without compromising comfort. Engineered with a sleek black shell, it features optimal ventilation to keep you cool on intense rides. The ergonomic fit ensures stability, while the adjustable retention system provides a personalized feel. With the JAVA logo subtly placed on the side, this helmet blends performance and style seamlessly.

OFF BIKE

T-Shirt

Effortless style, on and off the bike. The JAVA Casual Tee is a must-have for those who live and breathe cycling. Made from soft, breathable cotton, it delivers all-day comfort with a modern, athletic fit. The bold JAVA logo on the front keeps it minimal, while the full-back dotted graphic adds a dynamic touch. Whether you're gearing up for a ride or unwinding post-ride, this tee is the perfect blend of performance

ON BIKE

Storage Box

Sleek, compact, and essential for every ride. The JAVA Seat Tube Storage Box offers a secure and discreet way to carry your essentials without compromising aerodynamics. Designed to fit seamlessly on your frame, its durable, weather-resistant construction keeps your tools, CO cartridges, and spares protected in all conditions. With a minimalist black finish, it blends effortlessly with any setup.

OFF BIKE

Canvas Bag

Versatile, durable, and effortlessly stylish. The JAVA Canvas Bag is designed for cyclists who value practicality without compromising on style. Made from sturdy, eco-friendly fabric, it's perfect for carrying your essentials—whether you're heading to the café, the workshop, or a post-ride meetup. The centered JAVA logo adds a bold yet minimal touch, making it a go-to accessory for everyday use. Ride, carry, repeat.

ON BIKE

Storage Rack

Organized, sturdy, and built for your ride. The JAVA Storage Rack provides a sleek and reliable solution to keep your bike securely stored when not in use. Designed with a durable black finish and a compact footprint, it fits seamlessly into any space, from home to workshop. The stable structure ensures easy bike placement, while the subtle JAVA logo adds a refined touch. Keep your setup clean and ready to roll.

OFF BIKE

Coffee Cup

Fuel your ride, one sip at a time. The JAVA Coffee Cup is the perfect companion for cyclists who start their day with a dose of caffeine. With its sleek black design and subtle grey JAVA logo, this cup blends style and function effortlessly. Crafted for durability and heat retention, it keeps your coffee warm whether you're at home, in the office, or gearing up for your next ride. Because every great ride begins with great coffee.
